

## ADDING, SWAPPING, OR DROPPING A COURSE

### What is the difference between *ADDING*, *SWAPPING*, and *DROPPING*?

**ADDING** is the ability to add new courses to your schedule. Students can **ADD** classes to their schedules starting on their registration day (given they have no holds on their account) through the end of the **Add/Swap** period.

**SWAPPING** allows students to simultaneously switch a current course for a new course or a new section of that same course. Swapping is helpful because it keeps your seat in your current course if the change can't be made. Students can **SWAP** classes in their schedule starting on their registration day (given they have no holds on their account) through the end of the **Add/Swap** period.

**DROPPING** a course is the ability to remove a course from your schedule and not have it on your academic record. Students can **DROP** courses from their schedule starting on their registration day through the end of the **Drop** period.

### What are you looking to do?

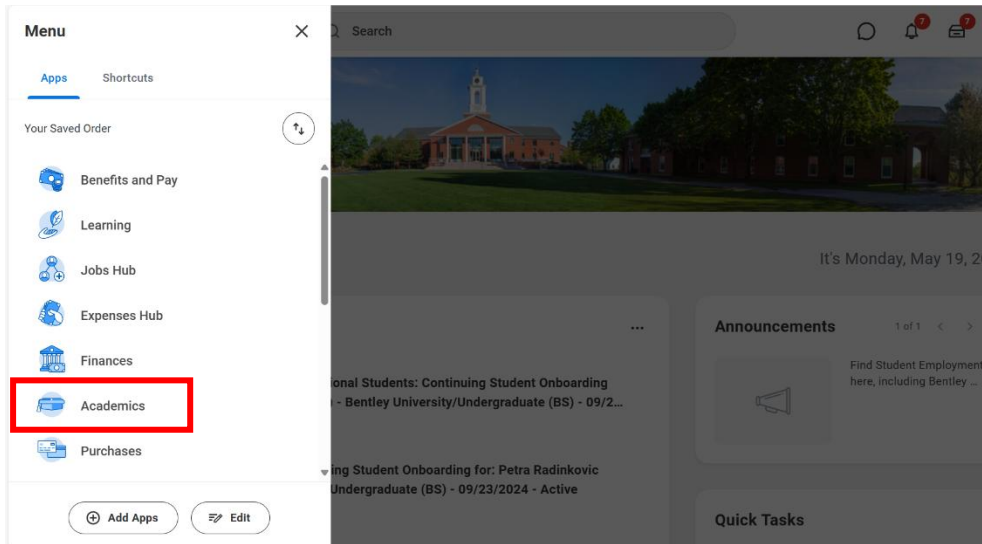

- **ADD** a course to your schedule: Go to [Adding a Course](#) on page 2.
  - If you also plan to *drop* a class, go to **SWAP**.
- **SWAP** a course in your schedule: Go to [Swapping a Course](#) on page 7.
- **DROP** a course from your schedule: Go to [Dropping a Course](#) on page 12.
  - If you also plan to *add* a class, go to **SWAP**.

**NOTE:** Make sure you are paying attention to deadlines! After certain dates unique to each action, you will no longer be able to add/swap, drop, or withdraw from a course.

## Adding a Course

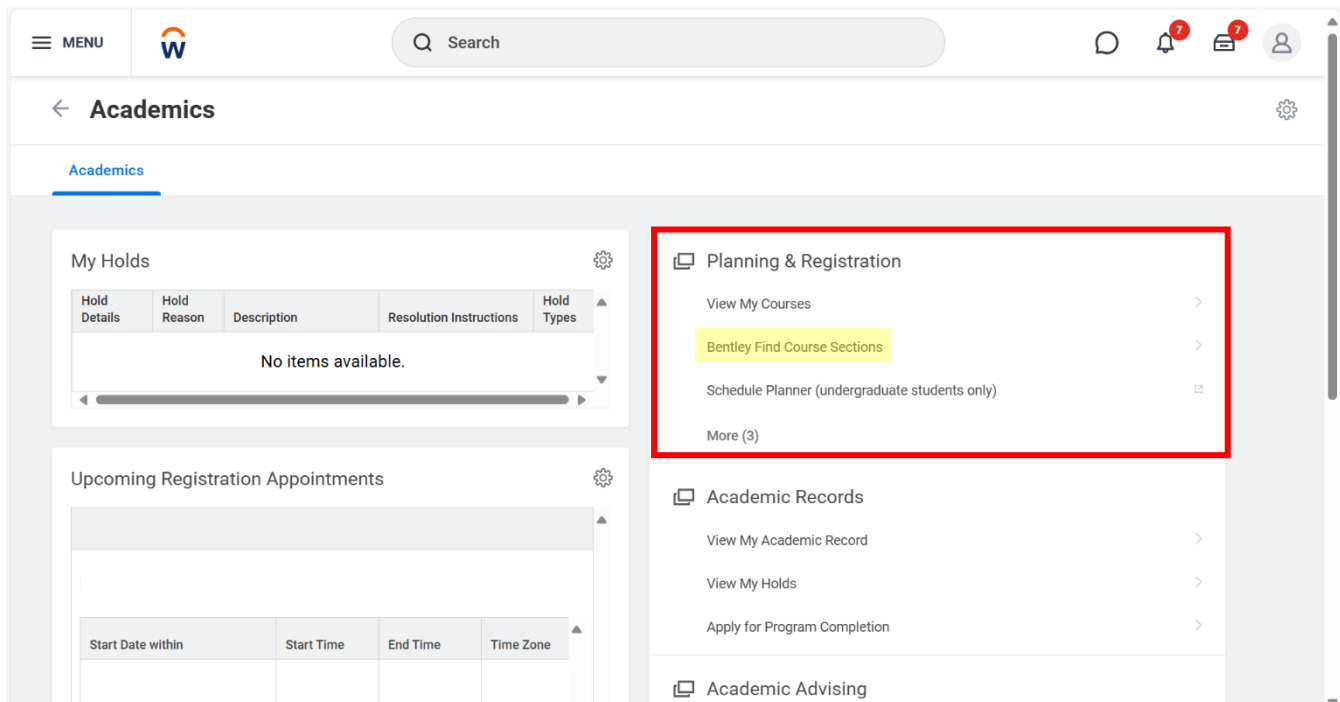

### Step 1

Select **Academics** from the menu in Workday.

### Step 2

On the **Academics** page, select **Bentley Find Course Sections** within the **Planning & Registration** section.

### Step 3

In the pop-up, click in the **Start Date Within** box and type in the semester you wish to search (i.e., Fall 202X) and Select enter. Click in the **Academic Level** box and select **Undergraduate**. Select **OK**.

The image shows two screenshots of the 'Bentley Find Course Sections' pop-up window. The top screenshot shows the initial state with empty input fields for 'Start Date within' and 'Academic Level'. A yellow arrow points down to the bottom screenshot, which shows the fields populated with '2025 Fall Semester (09/02/2025-12/16/2025)' and 'Undergraduate' respectively. Both screenshots include 'Cancel' and 'OK' buttons at the bottom right.

### Step 4

If there is a specific course you wish to search for, you can type that course subject and number into the search bar.

The image shows the Bentley Find Course Sections search interface. The top navigation bar includes a menu icon, the Bentley logo, a search bar, and notification icons. Below the navigation bar, the search criteria are displayed: 'Start Date within 2025 Fall Semester (09/02/2025-12/16/2025)' and 'Academic Level Undergraduate'. A search bar at the bottom contains the text 'GLS 116' and a 'Search' button.

If you are looking for a course to fill a requirement with multiple options (such as a Context and Perspectives or an Arts & Science elective), you can use the filters on the left.

Important filters to note:

- Section Status
- Course Tags

The screenshot shows the Bentley Find Course Sections interface. On the left, the 'Current Search' panel has a red box around the 'Subject' filter, which lists various subjects like Accounting (52), Career Development (24), Chinese (4), Computer Information Systems (72), and Economics (51). Below this, the 'Delivery Mode' filter is also highlighted. A yellow arrow points from the 'Subject' filter to a detailed filter panel on the right. This panel, also outlined in red, shows a list of filters including 'Economics (51)', 'More', 'Delivery Mode' (In-Person 781, Online 65), 'Section Status' (Open 481, Closed 365), 'Course Definition', and 'Course Tags' (Context and Perspectives :: ... (49), Context and Perspectives :: ... (30), Context and Perspectives :: L... (35), Context and Perspectives :: ... (31), Context and Perspectives :: ... (34), Course Category :: Arts and ... (229), Course Category :: Asynchro... (65), Course Category :: Business... (179), Course Category :: Directed ... (2), Course Category :: Embedde... (1), Course Category :: First Year (308), Course Category :: Program... (39), Course Category :: Service-L... (61), and Course Focus :: Communica... (76)).

Example:

The screenshot shows the Bentley Find Course Sections interface with filters applied. The 'Subject' filter is set to 'Economics (51)'. The 'Delivery Mode' filter is set to 'In-Person (17)'. The 'Section Status' filter is set to 'Open (17)'. The 'Course Definition' filter is set to 'Context and Perspectives :: ... (12)'. The 'Course Tags' filter is set to 'Context and Perspectives :: ... (17)'. The list of course sections includes:

- 2025 Fall Semester (09/02/2025-12/16/2025) | Global Media | Open | Ben Aslinger | 26/27 | Lecture

## Step 5

Once you find a course you wish to add to your schedule, click on the course title to view more information about that section.

### GLS 116-4 - International Relations

2025 Fall Semester | 09/02/2025-12/16/2025 | International Relations | Open | Young Ju Rhee | 14/27 | Lecture

## Step 6

On the **View Course Section** page, click **Start Registration** at the bottom of the page.

If the **Start Registration** button is not there, you cannot enroll in that course. Potential reasons include:

- You don't meet the course prerequisite(s)
- The course is closed
- You don't have a valid registration time
- Reserved Capacity (while in effect)
- There is a registration hold on your account

**View Course Section** GLS 116-4 - International Relations

**General Information**

Course: GLS 116 - International Relations

Description: This survey course introduces students to International Relations (IR) as a field of study in political science. Students will learn key terms, analytical tools and theories of IR, through which they can better understand and analyze important issues in global politics and the world economy. The course begins with an overview of the central themes, core principles and key concepts of IR, as well as the changing nature of the international system in both the pre-Cold War and post-Cold War eras. It discusses various theoretical approaches of IR and then focuses on several key issue areas, including peace and security, conflict and terrorism, weapons of mass destruction, international cooperation and organizations, international law and regimes, global trade and finance, relations between developed and developing regions, poverty and economic development, and the challenges of managing the environment, resources, and technological and information revolution in the age of globalization.

Academic Period: 2025 Fall Semester (09/02/2025-12/16/2025)

Primary Instructor: Young Ju Rhee

Start/End Date: 09/02/2025 - 12/16/2025

Status: Open

Total Section Capacity: 27

Seats Available: 13 of 27

## Swapping a Course

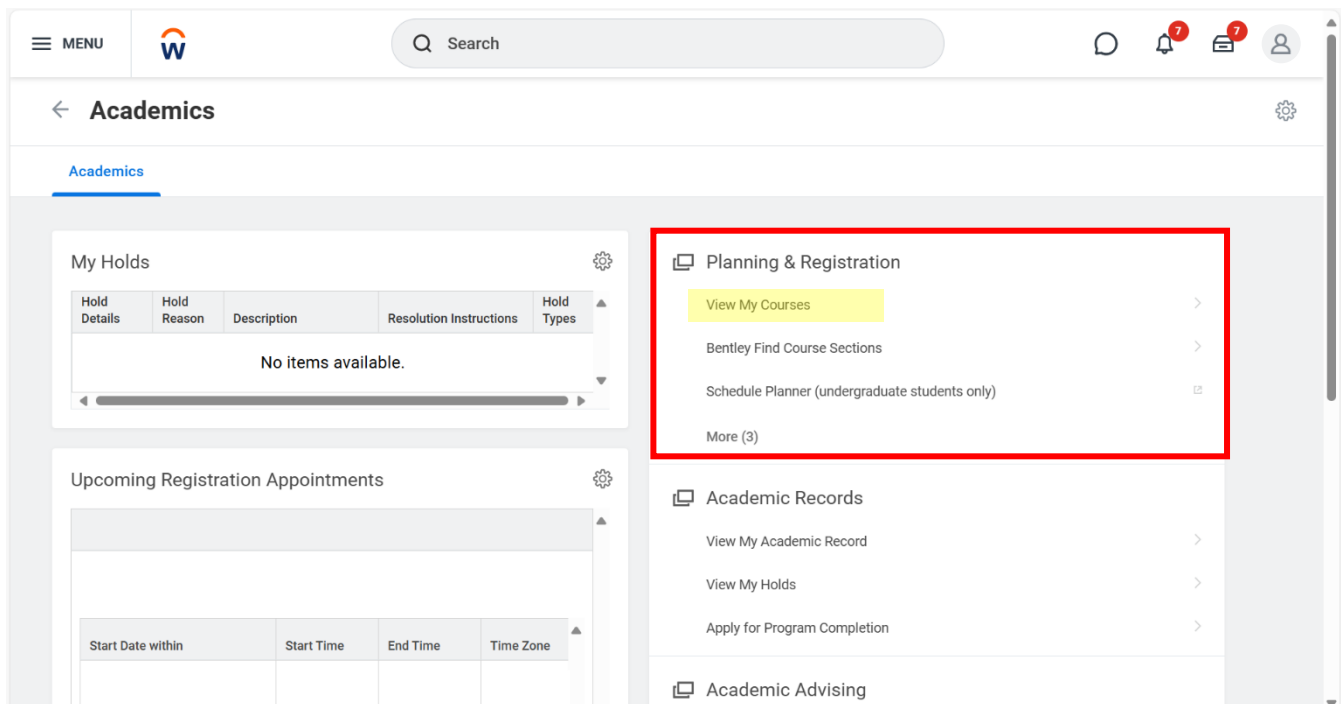

### Step 1

Select **Academics** from the menu in Workday.

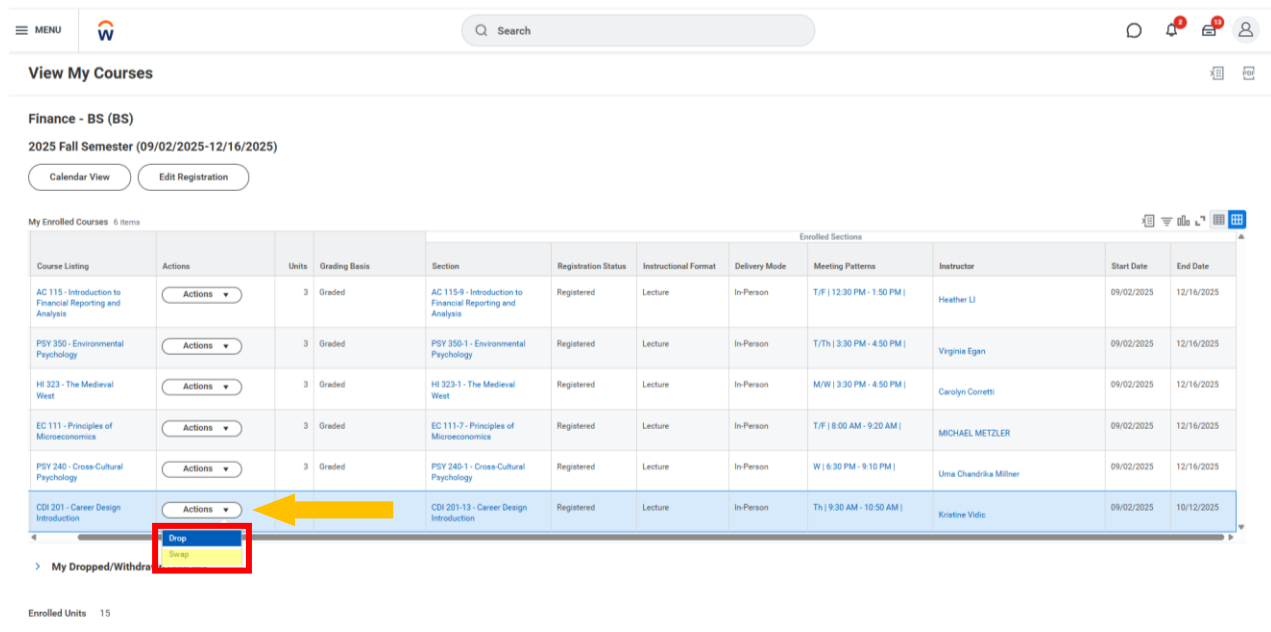

### Step 2

On the **Academics** page, select **View My Courses** within the **Planning & Registration** section.

### Step 3

On the **View My Courses** page, find the course you wish to swap. Hit the **Actions** button and select **Swap** from the dropdown.

The screenshot shows the 'View My Courses' page for a Finance - BS (BS) student in the 2025 Fall Semester (09/02/2025-12/16/2025). The page lists 6 enrolled courses. The course 'CDI 201 - Career Design Introduction' is highlighted in blue. A yellow arrow points to the 'Actions' button for this course. A red box highlights the 'Swap' option in the dropdown menu.

Course Listing	Actions	Units	Grading Basis	Section	Registration Status	Instructional Format	Delivery Mode	Meeting Patterns	Instructor	Start Date	End Date

### Step 4

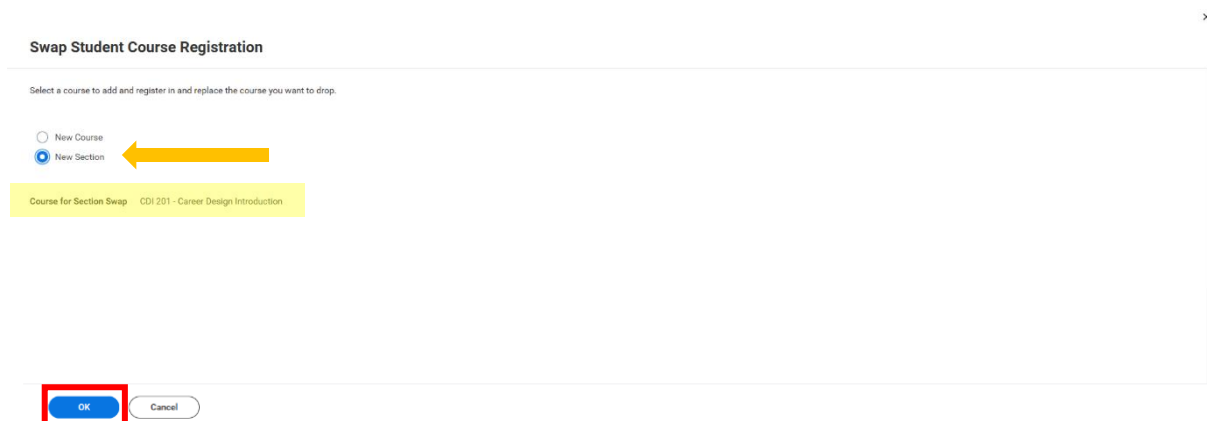

Your next steps will be determined by whether you want to switch *sections* of class or switch into a *new course*.

- If you want to swap *sections* of a course, continue to [Step 5](#).
- If you want to swap into a *new course*, skip to [Step 8](#).

### Step 5

To begin the process of swapping sections, select the **New Section** bubble. It will auto populate the name of the course you want to swap sections of.

Select **OK**.

The screenshot shows the 'Swap Student Course Registration' dialog box. The 'New Section' radio button is selected. A yellow arrow points to the 'New Section' button. The 'Course for Section Swap' is 'CDI 201 - Career Design Introduction'. The 'OK' button is highlighted with a red box.

Select a course to add and register in and replace the course you want to drop.

☐ New Course

☒ New Section

Course for Section Swap: CDI 201 - Career Design Introduction

## Step 6

On this page, you will need to uncheck the section you are currently in and then check the new section you want to be in. Double-check that the section you want to swap into is *open*.

Select **OK**.

**Swap Student Course Registration**

Select the section(s) you wish to add. Confirm that you wish to drop the section you are swapping out.

**Course** CDI 201 - Career Design Introduction

**Description** CDI 201 is for sophomores and focuses on helping students determine appropriate major and career path based on their strengths, interests, skills, and values. The curriculum is centered on advanced StrengthsFinder-based assessment, Strong Interest Inventory assessment, major decision assessment and customized career action planning. This course is a non-credit course and will not appear on the transcript. The 4-week class is only offered in the Fall of students' second year, and covers applying talent in career exploration based on strengths (StrengthsFinder assessment), personality and environment "fit" based on interests (Strong Interest Inventory assessment), major and career pathing and decision making, and customized career design action planning.

ST 113 - Business Statistics

Description

Modern businesses rely on data professionals to enhance and support decision-making. The primary objective of this course is to acquire proficiency in statistical techniques and concepts so that informed decisions may be made throughout critical business processes. Thus, the major topics of the course include: Descriptive statistics, both graphic & numeric; Probability and probability distributions, including (at least) the binomial and normal; Sampling distributions for means and proportions; Confidence interval estimation; Hypothesis testing; Simple linear regression. Applications will be drawn from primary business disciplines such as accounting, economics, finance, information systems, management, and marketing.
