

FALL 2021

INFORMATION TECHNOLOGY 101

Standard

Learn practical technology and Excel skills. Prior computing experience is not required. Appropriate for most students.

Accelerated

Hands-on and in-depth learning for students with a strong prior interest in tech or familiarity with Excel. **Sign up for IT101-20-X in the Fall.**

Service Learning

Participate in a community service learning project with everyone in your class, as part of the course. **Sign up for IT101-19-SL in the Fall.**

LEARN THE TECH SKILLS YOU NEED TO SUCCEED IN BUSINESS

Format, analyze, and present data using Excel

- Make a website for your business
- Sync data and devices with the cloud
- Configure a wireless network
- Keep your data and devices safe from hackers
- Use social media, search engines, and the web effectively
- Create multimedia and business documents
- Use technology responsibly
- Collaborate online
- Research technology trends

Standard and Accelerated sections offer a Service Learning 4th Credit option, where you can apply your tech skills volunteering with kids, seniors, or non-profits.
