

REAL-TIME CRIME CENTERS: THE EXPANDING ECOSYSTEM OF POLICE SURVEILLANCE

BROWN BAG SERIES

Hoffman Center for Business Ethics

Monday, Nov. 18, 2024

12:30 p.m. to 1:30 p.m.

In person: AAC 141

Zoom: [Register Here](#)

Police adoption of real-time crime centers, once-costly control rooms of surveillance technology, has exploded in the last few years. More police departments than ever are using cameras, microphones, and license plate readers, and a growing collection of companies is helping law enforcement join their many information streams with those from other police departments, corporations, and data brokers. Beryl will discuss these trends in police technology, the threats they pose to civil liberties, and the gaps in legislation that are harming residents' rights across the country.

Beryl Lipton

Senior Investigative Researcher
Electronic Frontier Foundation (EFF)

Presented by the Hoffman Center for Business Ethics at Bentley University.
