

Professional MBA Program Schedule

This MBA program is designed for busy professionals, offering a flexible, two-year schedule for career advancement. By joining a cohort of motivated individuals from diverse backgrounds and industries, you'll learn from each other's experiences, share valuable insights, and build lasting connections that will benefit you throughout your career. The program includes 10 in-person Immersion Weekends, asynchronous weeks of self-paced work, synchronous weeks of live virtual classes to connect with professors and other students in your cohort from your location of choice, and one global immersion experience.

Schedule of Course Offerings

The Professional MBA's innovative course structure is designed to equip students with both a strong foundation in core business disciplines and the flexibility to customize their learning journey. Through a unique combination of essential coursework, interdisciplinary focus areas, and hands-on skills workshops and technology labs, students are better positioned to lead in today's dynamic, tech-driven business landscape.

Essentials

These core courses cover the fundamental building blocks of business, providing students with the critical knowledge needed to lead across disciplines.

Focus Areas

Students customize their experience by selecting four interdisciplinary focus areas, each consisting of six credits and taught by faculty with multidisciplinary experience.

Skills Workshops & Tech Labs

These half-credit courses build key leadership and tech competencies to help students drive value with modern solutions.
