

Master of Business Administration

MBA

LEADING POSITIVE CHANGE

Dennis Paroyian

Senior Financial Analyst
Thermo Fisher Scientific

My main responsibilities include forecasting, budgeting, and building financial models to support the Corporate Finance team. I've also held various financial analyst roles working in the defense industry at Raytheon Technologies.

I pursued an MBA to further advance my career and it has opened up many opportunities. I knew several people who went to Bentley and did really well in their careers. The best part about my experience was that I was able to meet amazing people and expand my professional network.

The Bentley MBA taught me the necessary leadership skills needed to succeed in today's work environment. You don't need to be a manager to be impactful in an organization, anyone can step up and create positive change and my MBA helped me do that.

Ranked among the best business schools in the U.S. by *Bloomberg Businessweek*, Bentley offers an MBA that can be customized to fit your career goals wherever you are in life.

To get ahead in today's competitive business environment, you need practical hands-on experience where you'll face the same challenges top executives around the world are tackling right now. That's what our industry-tested faculty brings to the Bentley MBA program. You'll become fluent in the language of technology, gain the managerial acumen to effect a positive influence on complex systems and develop communication skills employers seek.

Every Bentley MBA student gets access to our innovation labs and lifetime support from our nationally ranked Pulsifer Career Development Center.

Overview

- Join an extensive global business network and benefit from 45+ graduate career events per year.
- Enroll full-time or part-time, and choose from online, hybrid and in-person modalities.
- Take on business challenges and recommend responsible solutions.
- Tailor your MBA by selecting from eight concentrations: accounting, business analytics, finance, strategic health care management, information systems and technology, law and taxation, leadership and marketing.
- Utilize innovative high-tech labs including the Lab for Economics, Accounting and Finance, Center for Language and International Collaboration, Computer Information Systems Sandbox, Trading Room and User Experience Center.

BENTLEY UNIVERSITY

McCallum Graduate School
of Business

Curriculum

The MBA program has a 12-course, 36-credit minimum requirement for degree completion consisting of foundation, core courses and electives either in a selected concentration or a series of personalized courses. If three or more foundation courses are waived, students are required to take additional electives to meet the program minimum of 12 courses. An evaluation of each student's background for pre-program foundation course waivers is part of the admission process.

Pre-Program Foundation

All applicants will be evaluated for foundation waivers.
