Since 1917, Bentley has taught and trained America’s best accounting minds. This century-plus of history informs and inspires the entire Bentley PhD in Accountancy program. Here, you’ll gain an in-depth understanding of accountancy, as well as a broad appreciation of business in the context of the global economy. This grounding enables you to develop the philosophical underpinnings and the tools and techniques necessary to conduct quality business-relevant research.

**PROGRAM FEATURES**
- A strong disciplinary foundation in financial reporting, auditing, managerial control systems, and judgment and decision-making.
- A broad interdisciplinary foundation with emphasis on business, technology, society.
- Methodology courses, including both quantitative and qualitative courses, as well as a specialized course in experimental design.
- An accountancy workshop, considering special topics in accounting research.
- A strong network of graduates who predominantly earn tenure at their first placement.
- Free tuition and student health insurance, plus a generous stipend for the first four years, with a fifth year of funding possible. Students also receive generous research and conference support.

Bentley’s PhD program also trains excellent teachers who go on to work in some of the top accountancy programs in the country. Here, you’ll:
- Take a workshop in teaching from the university’s recognized teaching experts.
- Shadow an experienced professor, learning teaching techniques and course management.
- Teach one course per term starting in year three.

Designed for top-level candidates with interest in:
- Audit quality
- Management control
- Capital markets
- Investor and auditor decision-making
- Accounting information systems
- Information technology controls
- Corporate governance
