

ACCOUNTANCY

In all aspects of the business world, accounting is critical. With an Accountancy degree from the nationally ranked programs at Bentley, you could become a financial executive at a multinational corporation. You could become a CPA and serve as strategic consultant to small businesses, or engage in assurance, tax or advisory services at regional, national or international public accounting firms. You could even reduce white-collar crime by working as a forensic accountant for the FBI.

Widely recognized as among the best in the nation, our Accountancy program provides you with an understanding of the underlying principles of accounting and how they are applied in the real world. You can structure your curriculum to focus on a number of key areas in accounting, including:

- Cost accounting
- Financial accounting
- Information technology in accounting
- Internal or external auditing
- Taxation

Regardless of the emphasis you choose, you will gain a core of technical knowledge — including training in computer applications — so that you will gain a complete understanding of the design, implementation and review of a fully automated accounting system.

An important part of your curriculum will be the Howard A. Winer Accounting Center for Electronic Learning and Business Measurement (ACELAB). In this high-tech facility, you will gain practical experience with auditing and tax preparation software, data modeling, report generating applications, and other professional tools.

TAKE IT TO THE NEXT LEVEL.

After you've selected a major, what else can you do to make your education work harder? Customize your degree with an optional second major, choose a minor or get a head start on graduate study.

LIBERAL STUDIES MAJOR You can choose to pair your business degree with the Liberal Studies major (LSM), an optional second major with eight different concentrations. The LSM is designed to help you learn how to connect your business studies with key topics in the arts and sciences, providing you with skills in critical thinking, problem solving, creative analysis and communication — all of which will help you stand out to future employers. The LSM does not require any extra courses beyond the normal curriculum requirements.

The LSM concentrations are:

- American Studies
- Diversity and Society
- Earth, Environment and Global Sustainability
- Ethics and Social Responsibility
- Global Perspectives
- Health and Industry
- Media Arts and Society
- Quantitative Perspectives

MINORS You can further specialize your studies through one of our minors.

- Actuarial Science
- Business Economics
- Computer Information Systems
- Data Technologies
- Earth, Environment and Global Sustainability
- English and Media Studies
- Entrepreneurial Studies
- Finance
- Gender Studies
- Global Management
- Health and Industry
- History
- Human Resources Management
- Information and Process Management
- Information Design and Corporate Communication
- International Affairs
- International Economics
- Law
- Leadership
- Management
- Marketing
- Mathematical Sciences
- Modern Languages
- Natural and Applied Sciences
- Nonprofit Organizations
- Philosophy
- Politics
- Psychology
- Public Policy
- Sociology
- Spanish for Business
- Sports Business Management
- Supply Chain/Operations Management

FALCON FAST-TRACK PROGRAM The Falcon Fast-Track program is designed for motivated undergraduate students with high academic standing in ANY undergraduate major. Depending on the program of study, master's degree requirements may be completed with one year of additional full-time academic work. Students enrolled in the Falcon Fast-Track Program have the opportunity to pursue one of nine master's programs.
